A member of Sage FAS Nonprofit — an integrated fixed asset management solution.

FAS Report Writer gives you total control over the format, appearance, and context of all your depreciation and asset management reports. FAS Report Writer lets you create professional, custom reports instantly to save and reuse whenever you wish and modify any standard FAS Nonprofit report. What's more, you can even share fixed asset data with other programs using the built-in spreadsheet export. Enjoy custom reports and data integration—all in one easy-to-use, point-and-click system.

Complete flexibility with unlimited reporting possibilities.

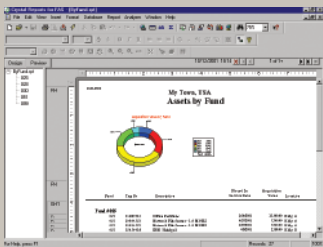

- Handle any volume of data, up to 999,999 assets in a single report
- Select any FAS Nonprofit Asset Accounting or FAS Nonprofit Asset Inventory data field you want to use as a column heading
- Save customized reports to "My Favorites"
- Specify security on customized reports
- Choose the range of assets you want to include in your report—you can even specify a wildcard entry which will search the database for a partial match of what you're looking for
- Determine the way you want to subtotal and group the data in your reports—you'll have an unlimited number of sorts and subtotals

(over, please...)

- Create an unlimited number of columns which can be designed to hold the results of calculations based on other fields and columns, or on your own custom formulas
- Change headers, footers, currency rounding, and modify columns on all standard reports
- Store report templates for future use or editing
- Use visuals to make your fixed asset data stand out—create graphs using FAS Nonprofit data, or copy and paste existing graphics
- Export data to Excel, Word, PDF, ASCII files, and more
- Save report definitions to use for future reports or share with other users, saving hours of valuable time
- Enjoy unlimited possibilities for any type of report—including Consolidated, Summary, and Asset Insurance
