

## Sage FAS Links

Easily and conveniently move fixed asset information from your Sage FAS Fixed Assets solution into your General Ledger or other accounting system with Sage FAS Links. Just a few simple clicks of the mouse and you can quickly transfer your fixed asset data, ensuring the consistency of the information entered and reducing the risk of data errors. You'll save valuable time because your fixed asset information doesn't have to be re-keyed into another system after a run of depreciation.

*"Sage FAS and Sage Timberline Office are great together, because there are few limitations to their use. They integrate well, and are also able to communicate key information to and from other software. We frequently recommend Sage FAS and Sage Timberline Office to others, including our subcontractors."*
