software

insights for the life of your business™

Want a firm grip on your fixed assets without tying up your people? FAS Suite® is more than just an effective system for getting your fixed assets under control. It's a complete solution that's affordable, easy to install, and intuitive to use.

#### FAS Asset Accounting™

Features the industry's most comprehensive depreciation calculation engine.

#### FAS Asset Inventory™

Easily conduct and reconcile physical inventory data with financial records in real-time.

#### FAS Report Writer™

Keeps everyone well informed with an unlimited number of customized reports.

## FAS™ is the only solution needed to manage your fixed assets—and the #1 fixed asset management solution in the marketplace.

It's an unfortunate reality that many companies overpay thousands (some even millions) of dollars in taxes and insurance due to improperly or ineffectively managing and depreciating their fixed assets.

One solution is chosen by businesses 3-to-1 over all other competing software options combined: FAS.

With FAS, you get total command over the entire fixed asset lifecycle—from acquisition to disposal. Everything you need comes in one powerful, flexible, affordable package. FAS is the definitive IRS tax and GAAP rule expert, giving you:

- An intuitive interface that's easy to implement, learn, and use
- Seamless integration among the accounting, inventory, and reporting applications
- Direct links to your general ledger system
- Comprehensive, easy-to-use reporting features

*"FAS has an intuitive interface, quick data entry, many options and holds lots of detailed data."*

— The CPA Software News  
awarding FAS with its 5-star rating

## Linking to your General Ledger is a Snap

You can easily share fixed asset information between your FAS fixed asset management solution and your Best Software—or any other—GL package! Designed to work with all GL systems or modules, our links allow information to travel between FAS and your accounting program in a standardized format. With this fast, easy-to-use software, you'll save data entry time and ensure greater accuracy.

## Answers to your questions (and much more) are just a call or click away.

FAS SupportPlus® members benefit from an unmatched level of customer support. You can call our friendly experts for help anytime Monday through Friday, from 8AM to 8PM EST. Or use SupportPlus Online<sup>SM</sup> to get answers 24 hours a day, 7 days a week.

What's more, SupportPlus users can also download software upgrades, access multimedia tutorials, and take advantage of exclusive discounts on new products.

## You can be confident choosing FAS.

For more than 20 years, FAS has been the market leader in fixed asset management software with over

## FAS Suite: Three integrated applications. One powerful solution.

*FAS Asset Accounting™* – Delivers advanced fixed asset accounting, depreciation, and reporting for any business needing effective asset management tools in integrated accounting environments. Simply stated, this software conveniently manages assets throughout their entire lifecycle—from acquisition to disposal.

*FAS Asset Inventory™* – Gives you unparalleled asset inventory tracking and reconciliation capabilities. Using state-of-the-art bar code technology—including Windows® CE and Palm OS® bar code devices—FAS Asset Inventory creates and tracks physical inventories quickly and accurately. The result? You enjoy tighter control over your

fixed assets.

*FAS Report Writer™* – Generate accurate, complete, customized reports that present fixed asset data however best suits your company. The easy-to-use report wizards make customizing your reports simple.

*FAS Suite is a comprehensive, seamlessly integrated fixed asset management solution perfectly suited for businesses of any size, including those requiring the power of a Microsoft® SQL Server infrastructure.*

## FAS FirstStep: The perfect solution for businesses managing fewer than 1,000 fixed assets.

Designed for small businesses, FAS FirstStep is the perfect solution for first-time buyers of fixed asset management software. FAS FirstStep organizes fixed assets in an easy-to-view format, performs complex depreciation calculations quickly and easily, and offers more than 20 pre-defined reports for financial and tax reporting of up to 1,000 fixed assets.
